## Plan Summary Submission

### Electronic Submission

Company Name

Eacom Timber Corporation

Facility Name

Ear Falls Saw Mill

Report Submitted By (authorized delegate)

I, the authorized delegate, acknowledge that by pressing the "Continue" button, I am electronically submitting the facility TRA Plan Summary for the identified facility.

## Substances

### NA - 03, Cadmium (and its compounds)

NA - 03, Cadmium (and its compounds)

#### Substances Section Data

##### Statement of Intent

Are the following included in the Facility's TRA Plan?

##### Use

Is there a statement that the owner or operator of the facility intends to reduce the use of the toxic substance at the facility?: \*

No

If 'yes', exact statement of the intent that is included in the facility's TRA Plan to reduce the use of the toxic substance at the facility: \*\*

If 'no', reason in the facility's TRA Plan for no intent to reduce the use of the toxic substance at the facility: \*\*

the toxic substance is not "used" at the Ear Falls Sawmill site. It is a by-product from the wood waste combustor used to generate useful heat for site processes.

##### Creation

Is there a statement that the owner or operator of the facility intends to reduce the creation of the toxic substance at the facility?: \*

No

If 'yes', exact statement of the intent that is included in the facility's TRA Plan to reduce the creation of the toxic substance at the facility: \*\*

If 'no', reason in the facility's TRA Plan for no intent to reduce the creation of the toxic substance at the facility: \*\*

the toxic substance is created incidentally as a by-product from the burning of biomass in the wood waste combustor used to generate useful heat for site processes.

#### Objectives, Targets and Description

##### Objectives

Objectives in plan: \*

No objectives in plan to reduce this toxic substance, as the site process by which the waste ash is created is necessary for site processes.

##### Use Targets

What is the targeted reduction in use of the toxic substance at the facility? \*

| No quantity target                  | Quantity | Unit |
|-------------------------------------|----------|------|
| <input checked="" type="checkbox"/> | or       |      |

What is the targeted timeframe for this reduction? \*

| No timeline target                  | years |
|-------------------------------------|-------|
| <input checked="" type="checkbox"/> | or    |

Description of targets

##### Creation Targets

What is the targeted reduction in creation of the toxic substance at the facility? \*

| No quantity target | Quantity | Unit |
|--------------------|----------|------|
|--------------------|----------|------|

or

What is the targeted timeframe for this reduction? \*

No timeline target

years

or

Description of Target

### Reasons for Use

Why is the toxic substance used at the facility?: \*

This substance is not used at the facility

Summarize why the toxic substance is used at the facility: \*\*

### Reasons for Creation

Why is the toxic substance created at the facility?: \*

As a by-product

Summarize why the toxic substance is created at the facility: \*\*

Cadmium is a component of the ash generated from the burning of the biomass in the wood waste combustor which supplies heat energy for site processes.

### Toxic Reduction Options for Implementation

#### Description of the toxic reduction option(s) to be implemented

Is there a statement that no option will be implemented?: \*

Yes, we are not implementing

If you answered "No" to this question, please add the option(s) under the appropriate Toxic Substance Reduction Categories (e.g. Materials or feedstock substitution, Product design or reformulation, etc.).

If you answered "Yes" please select the appropriate reason(s) in the picklist below for why no option was implemented for this substance at your facility. You may choose to provide an explanation in the text box that is beneath the picklist.

#### Materials or feedstock substitution

Empty

#### Product design or reformulation

Empty

#### Equipment or process modifications

Empty

#### Spill or leak prevention

Empty

#### On-site reuse, recycling or recovery

Empty

#### Improved inventory management or purchasing techniques

Empty

#### Good operator practice or training

Empty

Identify at least one reason why no option to reduce the use or creation of this substance was implemented at your facility:

Select the applicable reason or reasons \*\*

The substance is an unintended or unavoidable by-product created during the manufacturing process

Explanation of the reasons why no option will be implemented

EACOM TIMBER CORPORATION has confirmed that, as a result of its technical and economic investigations, it will not be

implementing any of the 7 options that might specifically and measurably reduce cadmium (disposal) identified in the plan. However, the Company will continue its preventative maintenance and training to maximize the efficiency and keep the emissions/toxic substance creation from our Konus biomass fuel burning at a minimum by maintaining an efficient operation and to manufacture according to C of A mandates. Although a focus in training or improved operating practices will not provide a measurable reduction in cadmium creation, the company is dedicated to ensuring the Konus operates at maximum efficiency. It is our goal to keep operational times to a minimum and doing so will ensure that less biomass will be used and therefore generating less ash containing cadmium. We are committed to managing our process in a manner which controls emissions/toxic substance creation to the greatest extent possible within the technical and economic constraints of our industry. Furthermore, the company will always keep an open mind of the option of burning a cleaner fuel such as natural gas, when it is practicable to do so and available at the location.

Rationale for why the listed options were chosen for implementation

General description of any actions undertaken by the owner and operator of the facility to reduce the use and creation of the toxic substance at the facility that are outside of the plan

License Number of the toxic substance reduction planner who made recommendations in the toxic substance reduction plan for this substance (format TSRPXXXX): \*

NA - 08, Lead (and its compounds)

### Substances Section Data

#### Statement of Intent

Are the following included in the Facility's TRA Plan?

#### Use

Is there a statement that the owner or operator of the facility intends to reduce the use of the toxic substance at the facility?: \*

No

If 'yes', exact statement of the intent that is included in the facility's TRA Plan to reduce the use of the toxic substance at the facility: \*\*

If 'no', reason in the facility's TRA Plan for no intent to reduce the use of the toxic substance at the facility: \*\*

the toxic substance is not "used" at the Ear Falls Sawmill site. It is a by-product from the wood waste combustor used to generate useful heat for site processes.

#### Creation

Is there a statement that the owner or operator of the facility intends to reduce the creation of the toxic substance at the facility?: \*

No

If 'yes', exact statement of the intent that is included in the facility's TRA Plan to reduce the creation of the toxic substance at the facility: \*\*

If 'no', reason in the facility's TRA Plan for no intent to reduce the creation of the toxic substance at the facility: \*\*

the toxic substance is created incidentally as a by-product from the burning of biomass in the wood waste combustor used to

generate useful heat for site processes.

## Objectives, Targets and Description

### Objectives

Objectives in plan: \*

No objectives in plan to reduce this toxic substance, as the site process by which the waste ash is created is necessary for site processes.

### Use Targets

What is the targeted reduction in use of the toxic substance at the facility? \*

| No quantity target                  |    | Quantity             | Unit                 |
|-------------------------------------|----|----------------------|----------------------|
| <input checked="" type="checkbox"/> | or | <input type="text"/> | <input type="text"/> |

What is the targeted timeframe for this reduction? \*

| No timeline target                  |    | years                |
|-------------------------------------|----|----------------------|
| <input checked="" type="checkbox"/> | or | <input type="text"/> |

Description of targets

### Creation Targets

What is the targeted reduction in creation of the toxic substance at the facility? \*

| No quantity target                  |    | Quantity             | Unit                 |
|-------------------------------------|----|----------------------|----------------------|
| <input checked="" type="checkbox"/> | or | <input type="text"/> | <input type="text"/> |

What is the targeted timeframe for this reduction? \*

| No timeline target                  |    | years                |
|-------------------------------------|----|----------------------|
| <input checked="" type="checkbox"/> | or | <input type="text"/> |

Description of Target

### Reasons for Use

Why is the toxic substance used at the facility?: \*

This substance is not used at the facility

Summarize why the toxic substance is used at the facility: \*\*

### Reasons for Creation

Why is the toxic substance created at the facility?: \*

As a by-product

Summarize why the toxic substance is created at the facility: \*\*

The lead is a component of the ash generated from the burning of the biomass in the wood waste combustor which supplies heat energy for site processes.

## Toxic Reduction Options for Implementation

### Description of the toxic reduction option(s) to be implemented

Is there a statement that no option will be implemented?: \*

Yes, we are not implementing

If you answered "No" to this question, please add the option(s) under the appropriate Toxic Substance Reduction Categories (e.g. Materials or feedstock substitution, Product design or reformulation, etc.).

If you answered "Yes" please select the appropriate reason(s) in the picklist below for why no option was implemented for this substance at your facility. You may choose to provide an explanation in the text box that is beneath the picklist.

### CONFIRMATION STATEMENT OF TOXIC REDUCTION PLANNER

As of 29/11/18, I, Don Drouin, certify that I am familiar with the processes at the Ear Falls Sawmill site that use or create the toxic substance referred to below, that I agree with the estimates referred to in subparagraphs 7 iii, iv and v of subsection 4 (1) of the *Toxics Reduction Act, 2009* that are set out in the 2017 toxic substance reduction plans referred to below for the toxic substances and that the plans comply with that Act and Ontario Regulation 455/09 (General) made under that Act.

- Lead (and its compounds) CAS number RN – N/A-08
- Cadmium (and its compounds) CAS number RN – N/A-03

Donald Drouin  
TSRPO056

NOVEMBER 29<sup>th</sup> 2018

CONFIRMATION STATEMENT OF HIGHEST RANKING EMPLOYEE

As of December 3rd, I, Gilles Plante, certify that I have read the 2017 toxic substance reduction plans for the toxic substances referred to below and am familiar with its contents, and to my knowledge the plans, are factually accurate and comply with the *Toxics Reduction Act, 2009* and Ontario Regulation 455/09 (General) made under that Act.

- Lead (and its compounds) CAS number RN - N/A-08
- Cadmium (and its compounds) CAS number RN N/A-03
